# FACILITY BENCHMARKING -----> *in Europe*

The International Facility Management Association's (IFMA) FM Research and Benchmarking Institute (RBI) is preparing the **Operations and Maintenance (O&M) Benchmarking Report** in Europe. With tangible data ready for immediate application, this report is the go-to resource for facility management professionals.

**WE NEED YOU!** IFMA is specifically seeking participants from Europe's IFMA members and non-members.

**Designed for Facility Managers or staff that oversee key operations and maintenance tasks**, this detailed survey will help set benchmarks for the coming years. Start preparing *today* by gathering your most recent annual FM spend data and budget details.

The survey was shared 13 January 2021. IFMA members will receive a individual survey link. All nonmembers can participate as well. Please share this link with all those who would be interested: <http://bit.ly/35DCBNH>

Should you have any questions about the O&M survey or IFMA's RBI, contact:

Nickalos A. Rocha, MPA  
Director of Research and Operations  
[Nickalos.Rocha@ifma.org](mailto:Nickalos.Rocha@ifma.org)  
(713)-993-7633 (O)

## Key Benefits for You

-  Access to the latest data on operations cost by facility use, sector, & location
-  Understand maintenance staffing size benchmarks (FTEs)
-  Make the case for better workspace utilization in your facility
-  Compare total facility costs (maintenance, housekeeping, utilities and sustainability) with your peers
-  All participants receive a FREE copy of the final report

## ABOUT IFMA

The International Facility Management Association (IFMA) is the premier global professional association for the facility management industry. With over 23,000 members in 110 countries, we're seeking to advance the professional discipline of FM worldwide through professional development & credentialing programs, industry-leading research, global educational events & conferences and more!
